

Empowering whole person care for every patient you serve

CyncHealth is a public health data utility making it easier than ever for hospitals to improve patient access, engagement, and outcomes — while supporting care teams in their practice of medicine.

1100+

Healthcare facilities connected across the Midwest

5 million

Patient lives supported with comprehensive health data

1

Shared goal of healthier communities

Breaking down care silos for better patient outcomes

Clinicians shouldn't have to care for patients in a vacuum. By connecting healthcare organizations across the care continuum, CyncHealth enables providers to leverage both individual medical records and community-wide public health data to support healthier patients and healthier communities.

Better manage chronic conditions

Monitor emergency department utilization

Improve medication management

Deploy proactive population health interventions

A health data utility your clinicians *will* want to utilize

CyncHealth's technology puts the flow in workflow, making it easier for care teams to access the data they need, when they need it.

Comprehensive + longitudinal health history

Patient encounter-level reports

Diagnostic history

Allergies, immunizations, and laboratory results

Care for your community with CyncHealth's partner-enabled tools

Fulfill the CMS mandate of sending admission, discharge, and transfer (ADT) notifications in near real-time with Event Notification Services and Care Coordination technology.

Integrate with LTPACs to provide longitudinal clinical information, enabling smooth transitions of care, improving time and cost savings, and offsetting connection fees.

Enhance care coordination and delivery through a powerful, multi-state electronic referral network created in partnership with Unite Us.

Community-powered care for the common good
