

Respond to at-risk patients in their time of need

CyncHealth's Event Notification System and Care Coordination technology — powered by Collective Medical — helps providers fulfill the CMS mandate of sending admission, discharge, and transfer (ADT) notifications in near real-time.

Minimize unnecessary
ED utilization

Streamline care for
quicker visits

Increase cost savings for
patients and providers

Accelerate care
coordination

Reduce unnecessary
workups

Improve patient outcomes

Drive care team action to ensure the best health outcomes

Care coordination application

- Manage referrals
- Unite disparate data sources
- Integrates with all electronic medical records and practice management software

Event Notification System (ENS)

Receive alerts when patients have an event, such as an emergency department admission or discharge.

Community-powered care for the common good

CyncHealth, a 501(c)(3) organization, is a public health data utility that gives healthcare organizations the power to connect the dots across all points of patient care. It's more than sharing data between providers—CyncHealth empowers patients and their care teams to work together for better health outcomes, lower costs, and thriving communities.

Let's achieve our shared goal of healthier communities - together.
